BUILD YOUR READING AND LISTENING HABITS

You want to build your reading speed, vocabulary and grammar, as well as ideas for the writing and speaking tasks. Read newspapers and listen to podcasts or news radio.

LEARN THE TASKS AND E2 METHODS

Understand the test and the best methods to improve your performance. You can do it alone, but it will be faster with a teacher.

PRACTICE

Start reading, writing, speaking and listening. Get comfortable with the test. Practice, repeat and internalise what you've learned in class. Check the answers carefully.

TAKE THE E2 MOCK TEST

Take a simulation test; see your improvement; see where improvement is still needed. Get detailed feedback and find out what you need to work on.

KNOW YOUR STRENGTHS AND WEAKNESSES

Do you need better vocabulary? More reading? Grammar accuracy? Where do you need to spend more time? Find out what you need to do next, prioritise, and execute.

HINTS FOR STUDYING IN 30 DAYS

1. BUILD YOUR READING HABITS

Make sure you are exposing yourself to as much English language content as you can, not just test oriented readings: newspapers, magazines- all help build reading speed.

2. BUILD YOUR LISTENING HABITS

Subscribe to podcasts, news channels on Youtube or watch documentaries. Write down the words and ideas you hear. The better your general listening ability is, the easier it is to hear the words and follow the ideas.

.....
These should also give you vocabulary, and grammar, as well as ideas which will be really important in **speaking and writing**.
.....

3. IMPROVE YOUR WRITING WITH FEEDBACK

Learn the task types and know the principles- what to do and what not to do. Focus on clear ideas first. Then practise and get feedback from a teacher. Review the feedback to figure out what mistakes you're making. Then eliminate those mistakes.

4. IMPROVE SPEAKING WITH FEEDBACK

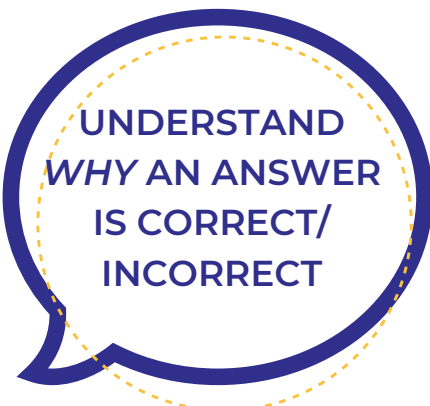

A teacher is incredibly important in helping you extend ideas, improve grammar range/accuracy, pronunciation, and fluency.

EVEN A MONTH CAN MAKE A BIG DIFFERENCE!

ADVICE FROM JAY & MARK

**UNDERSTAND
WHY AN ANSWER
IS CORRECT/
INCORRECT**

JAY:

One thing we do in our live classes on E2Language.com is we really go through the answers and the teacher explains why B is correct, and then also why A and C and D are wrong. So it's very clear.

It's a really good way to understand what's happening with these tests because they are designed in a particular way, and understanding *why* it is correct will help you answer similar questions in the future.

**The great news
is, it will also
make you a
better reader.**

MARK:

Understanding why the wrong answers were wrong is more important than getting them right.

Sometimes students get very excited about getting the answers correct but we want you to focus more on why the wrong answers were wrong, so that in the future, you get them right.

.....

MARK:

You don't want to memorise anything. The questions that you get on the test, you have no idea what they might be. So if you prepare one template, and then you deliver that on your test, the examiner is going to look at that and think, nope, they have not answered the question, and that is going to very severely affect your score.

A lot of students will get into trouble because they go off topic during the test and that can have a huge impact on your score. So focus first on organising your writing so your ideas are clear and then you get feedback on your grammar.

**DON'T
MEMORISE A
TEMPLATE**
